## Welcome to our Agricultural Newsletter!

Stay updated with the latest trends in the agriculture industry. Follow us on social media to keep up to date with all the New and exciting products coming in 2024

### Patriot 4450 2024

Introducing the pinnacle of innovation and power, the 4450 Patriot 2024! Prepare to be swept away by it's cutting edge design, unparalleled performance, and unmatched precision.

Step into a world where boundaries are shattered, and possibilities are limitless. The 4450 Patriot is not just a machine; it's a testament to the relentless pursuit of excellence. Get ready to experience the future of technology, where every moment behind the wheel is an adventure waiting to unfold. Welcome to a new era of excitement and dominance with the 4450 Patriot 2024.

#### Options and Features

- Deluxe Cab
- Hydrostatic Drive with Traction Control and Two Speed Pre-sets
- 4-Bar Linkage Suspension with 8 inches of Travel
- Wheel Track Adjustment from 118" to 160" with Automatic Control or Manual Control
- Service Brakes Internal to Each Drive Hub (All Four Hubs).
- Front Fill with Air Blowout
- Product System Rinse: Automatic Control or Manual Control
- Product System Options: Standard Flow or Optional High-Rate Kit
- Product Pump Options: Cast Iron or Stainless Steel
- AIM Command® Flex II Advanced Spray Technology
- LED Field Lighting or Deluxe LED Field Lighting
- Spray Pattern Lights Option
- Engine Cooling Fan: Reversing Fan
- Alternator: 240 Amp Standard with 330 Amp Optional
- Camera: One Camera Standard Optional 3 Cameras
- Center Section Only Option -- See your Sprayer Product Specialist for details
- Chemical Educator
- Chemical Injection
- Auxiliary Monitor Mount
- VSN® Visual Row Guidance
- AutoBoom® XRT for All Boom Offerings
- Intake Flow meter with Fill Flow Display
- Fence Row Nozzles

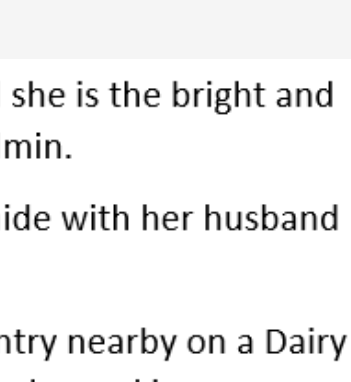

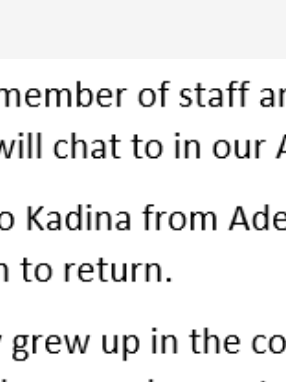

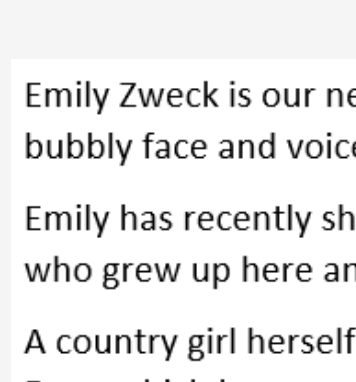

## What's News

### NEW STAFF ALERT

#### INTRODUCING 3 OF OUR NEWEST ADDITIONS TO THE TEAM

With a diverse range of skills and expertise, our new staff members are ready to bring fresh ideas and energy to our organization.

From seasoned professionals to eager graduates, each member brings a unique perspective that will contribute to our collective success. Say Hi if you spot them on the job. Welcome aboard Jayden, Emily and Ryan

Emily Zweck Ryan Richardson

Jayden Richardson is one of our Star Apprentice Diesel Mechanic who started with us last year.

Jayden started up in Whyalla and worked at Supa Auto Cheap before shifting to Kadina at age 17 to complete a Mechanical Apprenticeship.

Always striving to learn more Jayden now is working towards his life long dream of being a Diesel Mechanic.

Emily Zweck is our newest member of staff and she is the bright and bubbly face and voice you will chat to in our Admin.

Emily has recently shifted to Kadina from Adelaide with her husband who grew up here and keen to return.

A country girl herself, Emily grew up in the country nearby on a Dairy Farm which her parents still own and operate today making our beautiful Farmers Choice Milk so make sure you grab some off the shelf today and support SA.

Emily has recently worked in School Admin and Finance and is proving to be an exceptional part of our busy team.

Ryan Richardson is joining our Team as a Provision Farming Trainee and he is keen to learn and be mentored by our highly skilled Josh Cox.

Ryan grew up locally here in Kadina and after finishing his senior schooling in Adelaide has returned to the YP to work in the Agricultural industry here with us at Larwood's.

With Paddock Mapping and Line Manipulation becoming a large part of future farming, Ryan has a hands on great understanding and knowledge in this field with the help of Josh.

### Listen up

We know you are always thinking about your tillage and seeding gear and that means THINK.....

LARWOODS' AG SERVICES KADINA AND MAITLAND

With Brands like K-Line, Horwood Bagshaw, Agri-Spread, Equalizer and Morris we can take your seeding and tillage program to the next level.

If it's cutting edge technology or basic operation, Larwood's have you covered.

So, talk to your Larwood's Sales representative today and let us take the worry out of your Seeding in 2024.

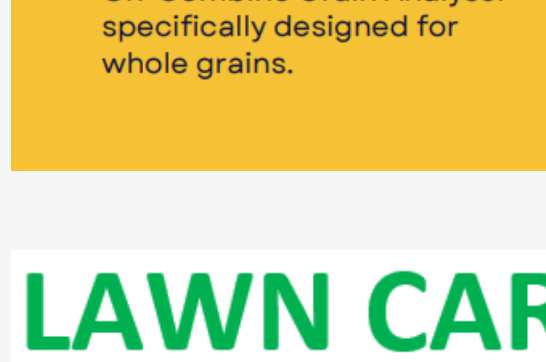

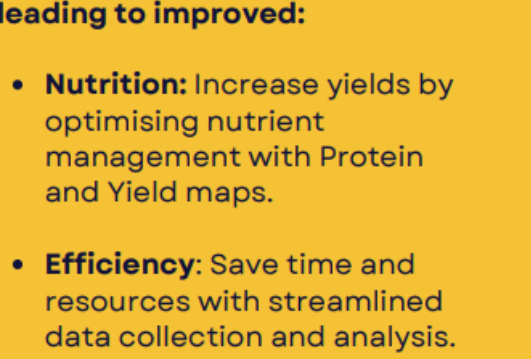

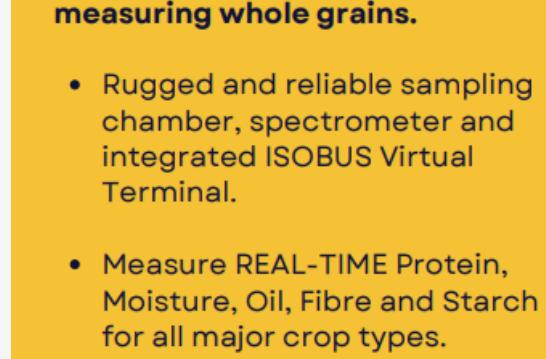

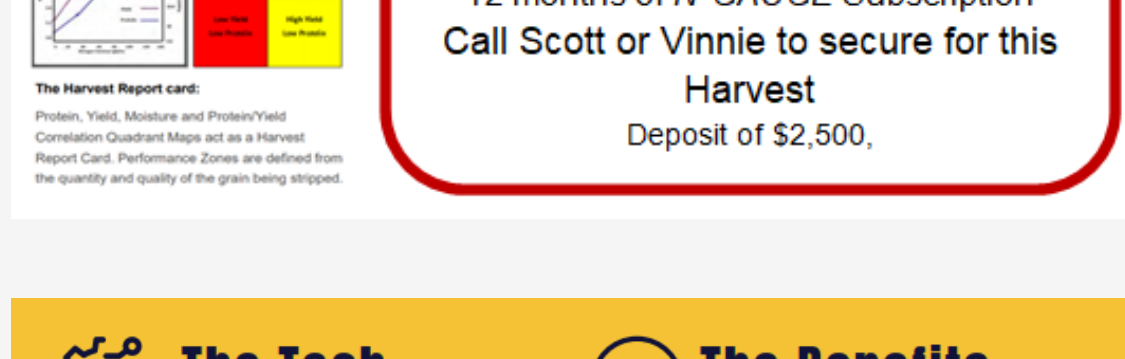

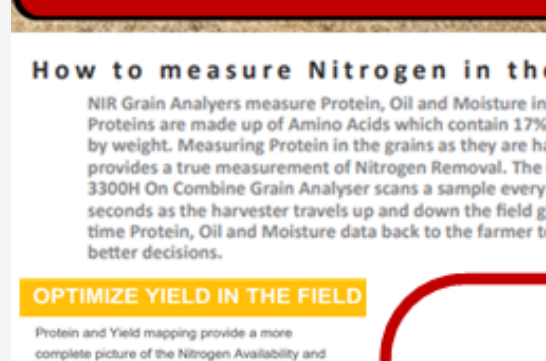

And don't forget to keep your existing Fleet machine in Tip Top condition with the help of our Service and Parts Team.

Call today on 88211999 or Call the boys direct.

### Seeding Tech Tip

#### From Protrakker

One key tech tip from Protrakker is to ensure proper calibration and alignment of your seeding equipment. This ensures precise seed placement and uniform distribution, optimizing crop yield potential. Regular maintenance and calibration checks can help prevent issues during seeding operations. If Protrakker is something you would like to know more about, please contact Josh Cox on 0429030375

#### 3300H ON COMBINE GRAIN ANALYSER

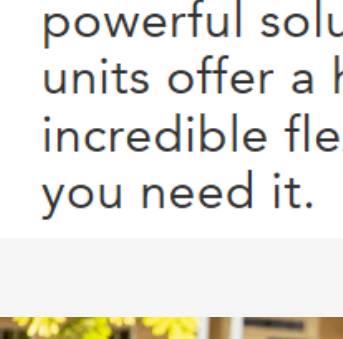

Limited Supply Only 3 Left for our Run Out Sale for 2024

How to Measure Moisture, Protein, Oil and Nitrogen in Grains

- ✓ Improve Harvest Efficiency by 5%
- ✓ Increase Crop Payments by 10-20%
- ✓ Reduce Nitrogen Inputs up to 7%
- ✓ Increase Yield 20-30%
- ✓ Increase Oil Fat in Grains

#### OPTIMIZE YIELD IN THE FIELD

Protein and Yield mapping provides a more complete picture of the nitrogen available and uptake in the field. Research shows that correct nitrogen application can increase yields by 10-15% and that additional nitrogen fertilizer can increase yields by 10-15%.

The Harvest Report card:

**\$28,600 inc gst**

Price includes 3300H Grain Analyser, fitment in Kadina or Maitland workshop on Case IH Combines and includes 12 months of N-GAUGE Subscription

Call Scott or Vinnie to secure for this Harvest

Deposit of \$2,500.

#### The Tech

Near Infrared Transmission Technology is the world standard when it comes to measuring whole grains.

- Rugged and reliable sampling chamber, spectrometer and integrated ISOBUS Virtual Terminal.
- Measure REAL-TIME Protein, Moisture, Oil, Fibre and Starch for all major crop types.
- 3-4 second scan speed for high density scans.
- CropScan is the only On-Combine Grain Analyser specifically designed for whole grains.

#### The Benefits

Measuring the amount of grain Protein indicates nutrient availability and uptake leading to improved:

- **Nutrition:** Increase yields by optimising nutrient management with Protein and Yield maps.
- **Efficiency:** Save time and resources with streamlined data collection and analysis.
- **Sustainability:** Minimise your carbon footprint. Maximise nitrogen efficiency and ensure your fertiliser is where you need it.

## LAWN CARE SPECIALS

Lawn Care has never been so easy with this New Stiga

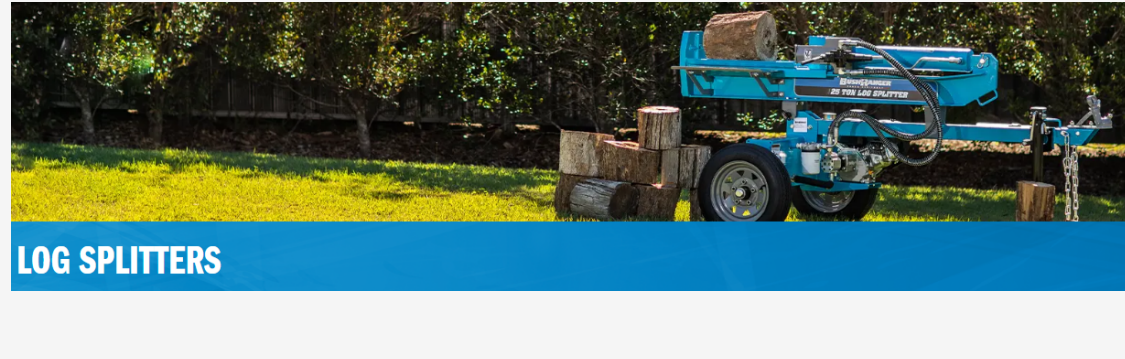

Tornado Ride On 5108

Jump in quick as this price is only while stocks last

RRP \$4199.00
